Overview:

The very best team walleye anglers from across North America compete in a year-long course annually on the Cabela's Masters Walleye Circuit (MWC). Only top teams from the MWC season, the reigning World Walleye Champions and the winners of the Cabela's National Team Championship (NTC) earn berths in this prestigious event.

It is fitting that the very best of the best will converge on "Title Town" in Green Bay, WI to compete for the title of World Walleye Champions.

The anglers are scheduled to compete for three full days on the famed Bay of Green Bay, where weather or a last minute giant big fish bite could be a game changer for any team who can figure out the bay. The Team with the heaviest cumulative weight from all three days of competition will take home the title of 2016 World Walleye Champions, custom World Champions Rings and the lion's share of the cash and prizes awarded during the event.

Call anytime with questions. 580.765.9031 www.MastersWalleyeCircuit.com
